

**NEW!**  
**NYC CLEG Event**

**Changing Landscape:**

**Current Developments that Will (and Should) Influence the Drafting and Negotiation of Energy Contracts**

*Speakers: Chuck Cerria, Geoffrey Heffernan, DJ Withee, Hess Corporation*

*Scott Le Bouef, Stroock & Stroock & Lavan LLP and Peter Malyshev, Winston & Strawn LLP*

*Moderator: Michael Etkin, Lowenstein Sandler PC*

We have assembled a top flight group of speakers whose companies and clients keep their fingers on the pulse of cutting edge issues for contract and legal professionals involving credit support, master netting agreements and Dodd-Frank. Current market conditions, legal trends and political influences have demanded our attention with respect to these issues and our panel, through an interactive presentation, will discuss how the drafting and negotiation of contracts has been affected by this changing climate.

The International Energy Credit Association (IECA) and, in particular, IECA's Contracts and Legal Education Group (CLEG), have been focusing on these areas and this program will provide some insight into the results of that focus relevant to our industry and your role as risk, contract and legal professionals.

**Thursday, August 18, 2011**

2:30—3:15 pm

Registration & Networking

3:30—5:00 pm
